INTRODUCE

Let's build a home in space.

Send my loyal companion, SeAPT (Shepherd), to conquer the universe and create Venture into space, conquer the stars, and discover countless treasures (coins).

These treasures (coins) will turn me into a billionaire!

Get APT In Space

In 2024, as global real estate markets skyrocketed, many people were forced to abandon their dream of owning a home. Dissatisfaction among Earth's population grew louder.

"If we can't afford a house on Earth due to soaring prices, why not look for a home in space?"

This idea gradually materialized into a meme coin called Se APT. "Se" stands for Space, and "APT" represents an apartment (house).

The coin gained even more traction as it resonated with the trending song APT, creating a

wave of enthusiasm. The birth of Se APT, a meme coin satirizing the "unattainable dream of owning a home," became a symbol of hope, representing the idea that anyone could own a home in space.

Now, Se APT has evolved beyond a simple meme coin to become a symbol of "future housing" and a "playful rebellion."

With the slogan, "We own apartments in space!", Se APT strives to overcome inequalities in reality while maintaining humor, symbolizing the freedom for everyone to dream big and reach for the stars.

TOKENOMICS

Total Supply

500 trillion

SeAPT is a next-generation meme coin built on the BSC network.

LP (Liquidity Pool)

96%

The ownership of SeAPT coins lies with the SeAPT users, and naturally, the power belongs to them as well.

Burn

300 trillion

Although Binance advised burning 200 trillion tokens, we decided to burn 300 trillion instead. It's a bold move, but we chose the path to increase value, even if it's a bit painful.

Charity and Airdrops

2%

Following the spirit of SeAPT, we'll use these funds to help many people and promote SeAPT worldwide.

Marketing and Exchange Liquidity

2%

As various exchanges keep asking for SeAPT coins, we'll allocate some to them and use the rest for marketing.
